

How to Register Your Safeware Card

Registering is quick and easy, and could save you time if you need to file a claim with Safeware. Follow the simple steps below to register your Safeware Protection Plan. Remember, if you register your card within the first 30 days, you're eligible for 6 months of complimentary theft coverage.*

1. Go to safeware.com/myplan.

2. Input the registration code on the back of your card, making sure to include dashes. Then, click "Continue." On the following screen, if the information is correct, click "Validate."

3. On the next screen, enter the purchase price of your device, not including tax. Make sure this is the purchase price of your device, not your Safeware card. Then click "Continue."

4. Fill out the form with your information, including your card purchase date. Supply your device information. Be sure you have the make, model, serial number, and device purchase date.

5. Finally, click "Register Plan."

Having trouble? Here are some solutions to common problems!

- Double-check your email address. A missed letter or an extra space can prevent progress with your registration.
- Make sure your serial number has been input correctly.
- Remember that your coverage can take up to 24 hours to activate. You will receive a confirmation email from Safeware when registration is complete.
